### **Malakoff's TJSB Secures 21-Year Contract For Solar Plant O&M**

**12 April 2018, Kuala Lumpur** – Teknik Janakuasa Sdn Bhd (“TJSB”), a wholly-owned subsidiary of Malakoff Corporation Berhad (“Malakoff”), a member of MMC Group, has secured an Operation and Maintenance (“O&M”) contract with a large scale solar photovoltaic power plant (“LSS”) in Kota Tinggi, Johor, with a capacity of 29MWac.

The O&M Agreement (“OMA”) was signed between ZEC Solar Sdn Bhd, which secured the project via first round of LSS competitive tender issued by the Energy Commission, and a consortium comprising TJSB and Zelleco Engineering Sdn Bhd for a period of 21 years starting from December 2018. The main scope of the OMA is to perform and provide services in relation to the operation, maintenance and repair of the said solar plant.

The TJSB-Zelleco Consortium will incorporate a special purpose O&M company (“OMCO”) to carry out its services and obligations under the OMA. The OMCO is obliged to meet the standard performance guarantee for the solar PV plant’s operation.

Commenting on the agreement, Malakoff’s Chief Executive Officer, YBhg Dato’ Ahmad Fuaad Kenali said, “Clearly, TJSB has been chosen due to its vast experience in operating and maintaining power generation facilities locally and abroad. TJSB currently operates & maintains six (6) power plants in Malaysia and three (3) overseas.”

“This agreement marks Malakoff’s first foray into the O&M of renewable energy assets and also means that our O&M business has now expanded to include both thermal, or conventional, and renewable energy power generation.”

With regards to renewable energy, Malakoff currently owns a 50% stake in Macarthur Wind Farm in Victoria, Australia, with an effective generation capacity of 210MW. Earlier this year, Malakoff also signed a memorandum of understanding with Touch Meccanica Sdn Bhd to collaborate in the development of several renewable energy projects, particularly in large scale solar photovoltaic and small hydro power plants in Pahang Darul Makmur.

## **ABOUT MALAKOFF CORPORATION BERHAD**

Malakoff is an independent water and power producer (“IWPP”) with core focus on power generation, water desalination and operation & maintenance services. In Malaysia, Malakoff is the largest independent power producer (“IPP”) with a net generating capacity of 6,346 MW from its seven power plants.

International assets include power and water ventures in Saudi Arabia, Algeria, Bahrain, Oman and Australia, with an effective capacity of 690 MW of power and 420,925 m<sup>3</sup>/day of water desalination. Malakoff is also actively looking to venture further in the fast growing Middle East and North Africa region as well as the South-East Asian markets. Through its wholly-owned subsidiary, Teknik Janakuasa Sdn Bhd, Malakoff has involvements in operation & maintenance services in Saudi Arabia, Algeria, Kuwait, Oman and Indonesia.

Malakoff believes in working together with all stakeholders in productive partnerships. As such, the Group takes pride in being a responsible operator and a good corporate citizen in all communities where it operates.

Malakoff is a member of the MMC Group.
